Professional Summary

I am a passionate Frontend Developer with a strong focus on creating dynamic, responsive, and user-centered web applications. Skilled in HTML5, CSS, JavaScript, React, and modern web design principles. I have experience transforming Figma prototypes into interactive web interfaces, utilizing APIs, and building modern applications using React. All my projects are available on GitHub, showcasing my expertise and dedication to continuous learning.

Work Experience

Frontend Developer Intern

Vica Web Solutions — August 2024 – January 2025
In my internship at Vica Web Solutions, I am building responsive and interactive user interfaces using HTML, CSS, and JavaScript. I translate Figma designs into functional web layouts and integrate APIs for enhanced interactivity. I also use React for development, optimizing the performance and responsiveness of web applications, and ensuring a seamless user experience.

Projects

1. **EduPress**
   [Live Project](#) | [GitHub Repo](#)
   A platform for learning and skill development, offering high-quality courses to help users grow in their careers. Built with HTML5 and CSS, this project emphasizes accessibility and engaging user experiences.
2. **DashStack Project**
   [Live Project](#) | [GitHub Repo](#)
   A dynamic web application for managing products, where users can add, display, and edit products in real-time. Built with React, React Router, and Tailwind CSS for responsive design and enhanced usability.

3. **Manage Posts**
   [Live Project](#) |[GitHub Repo](#)
   A simple dashboard for managing blog posts, featuring an intuitive interface for adding, editing, and deleting content. Built with HTML, CSS, and JavaScript.
4. **Blogs**
   [Live Project](#) |[GitHub Repo](#)
   An online publication platform, offering insightful articles with a modern, responsive design. Developed using React, React Router, HTML, and CSS.
5. **Cozy**
   [Live Project](#) |[GitHub Repo](#)
   An e-commerce platform specializing in footwear. It provides users with an intuitive shopping experience, featuring secure checkout and cart functionality. Built with HTML, CSS, JavaScript.

Technical Skills

- **Languages**: HTML5, CSS3, JavaScript
- **Libraries & Frameworks**: React, React Router, Tailwind CSS, Three.js
- **Tools**: Git, Figma, API Integration

Education
Damascus University — *Informatics Engineering, specializing in Artificial Intelligence*
